

# Monthly Control Review

FY26 Q3 monthly reporting | Synthetic management information | 2026-07-13

| Metric          | FY26 Q3 result |
|-----------------|----------------|
| Actual GMV      | ¥84.2M         |
| Plan            | ¥80.0M         |
| Prior           | ¥78.6M         |
| Gross / refunds | ¥86.0M / ¥1.8M |
| Report date     | 2026-07-13     |
| Control metric  | MTR-09         |

## Control objective

Confirm that the reported net GMV is reconcilable to the gross and refund inputs, aligns to the daily roll-up, and is ready for management use.

## Reconciliation result

Gross GMV of ¥86.0M less refunds of ¥1.8M equals net GMV of ¥84.2M. The control result is pass; no rounding exception was observed in the displayed ¥M figures.

## Plan and prior variance

Actual GMV exceeded the ¥80.0M plan by ¥4.2M and the ¥78.6M prior reference by ¥5.6M. These comparisons are formula-driven in the companion workbooks.

## Data quality checks

The scorecard tests GMV reconciliation, refund rate, plan attainment, and data freshness. The report date is 2026-07-13 and the control label is metric MTR-09.

## Review conclusion

Status: Ready for review. The content is fully synthetic, contains no personal data, and is intended for internal reporting practice only.

Source note: all values are synthetic and internally reconciled for reporting practice.
