

# MTR-09 Definition Approval

FY26 Q3 GMV variance reporting | Approval ID: APR-2026-0714-09

|                            |                                                               |
|----------------------------|---------------------------------------------------------------|
| Decision                   | Approve net recognized GMV as the MTR-09 reporting definition |
| Effective reporting cutoff | FY26 Q3 warehouse snapshot as of 2026-07-13                   |
| Approved value             | ¥84.2M net GMV                                                |
| Request / owner            | SR-2026-0713-09   Mika Tan, BI Data Analyst                   |
| SLA close target           | 2026-07-15 16:00 JST                                          |

## Approval basis

The team confirmed that the variance card must show the reporting metric, not a gross-order alternative. MTR-09 is completed merchandise value less customer refunds posted through the reporting cutoff.

## Reconciliation

| Component                | FY26 Q3 amount | Use in reporting    |
|--------------------------|----------------|---------------------|
| Gross merchandise value  | ¥86.0M         | Supporting bridge   |
| Refunds posted by cutoff | (¥1.8M)        | Supporting bridge   |
| Net GMV / MTR-09         | ¥84.2M         | Approved card value |
| Plan                     | ¥80.0M         | Variance baseline   |
| Prior period             | ¥78.6M         | Comparison baseline |

# Scope, controls, and sign-off

The approval applies to the dashboard card, weekly variance packet, and stakeholder request register.

## Definition controls

| Control           | Approved handling                                                                                   |
|-------------------|-----------------------------------------------------------------------------------------------------|
| In scope          | Online ¥46.3M and Stores ¥37.9M; East ¥26.4M, West ¥22.8M, Central ¥18.6M, North ¥16.4M.            |
| Out of scope      | Cancelled/uncompleted orders, taxes, shipping, gift-card load, and refunds posted after the cutoff. |
| Disclosure        | Use the label “Net GMV (MTR-09)” and state the gross/refund bridge in the hover note.               |
| Verification      | Channels, regions, and categories each reconcile independently to ¥84.2M.                           |
| Closeout evidence | Dashboard definition panel updated and reviewed by Merchandising before SLA close.                  |

## Sign-off

| Approver  | Role                     | Decision             | Recorded                 |
|-----------|--------------------------|----------------------|--------------------------|
| Erin Park | VP Merchandising         | Approved             | 2026-07-14               |
| Jonah Lee | Finance Business Partner | Concurred            | 2026-07-14               |
| Mika Tan  | BI Data Analyst          | Implementation owner | Due 2026-07-15 16:00 JST |

## Decision statement

MTR-09 is approved as net recognized GMV for FY26 Q3 as of 2026-07-13: ¥84.2M. Gross GMV and refunds remain the documented reconciliation bridge, not alternate headline values.
