Model Beta B07 Slice Robustness Assurance Report

HELIX FORGE LAB / p04-full-001453 / RUN R184 / 2026-07-13

ALPHA F1	PRECISION	RECALL	BETA F1
0.873	0.881	0.865	0.846

Decision context

This report records a bounded slice robustness evaluation on HF-Eval-S1/S2 v3.2. The 2,400-record population is synthetic. Alpha M-14 is retained as a research checkpoint, not as a deployment authorization.

Engineering interpretation

Aggregate improvement remains meaningful only with the frozen scoring policy. The review therefore keeps slice-level calibration, dataset lineage, and the comparison with Beta B-07 attached to run R184.

Lineage

Upstream evidence: p04-full-000011 (research/programs/model-beta/experiments/results/2026-07-13/model-beta-b07/dataset-assurance/specifications/model-beta-b07-dataset
