Interpretation of the evidence

Control evidence should contain only fields needed for an accountable review decision. For this record, the reasoned result is retain with confirmation. Assigned period: 2026-07-13; source period: 2026 Q3. These remain separate facts, so the assigned context never replaces the source record period. Reference: AC-27/p03-full-005217.

Required follow-through

Name the accountable reviewer. if an incomplete disposition note appears, it would weaken the closure rationale. the record-specific safeguard is to compare the governing field with the source record; that preserves an accountable decision without inventing a missing fact.. Remove repeated export fields after reviewer confirmation. The report requests no elevated access, customer data, or execution instruction.
