

AC-27 Assurance Report: Routing premise

Record reference: AC-27/p03-full-005117

Assigned review context: 2026-07-14

Routing premise

The report asks whether the case reference provides enough basis for a record-completeness check. It is synthetic defensive GRC evidence for Cobalt Harbor Systems and makes no Kio indexing, search, or readiness claim.

Evidence consequence

Unresolved record facts should stay in review rather than be inferred at closure. For this record, the reasoned result is preserve as bounded evidence. Assigned period: 2026-07-14; source period: 2026-07-13. These remain separate facts, so the assigned context never replaces the source record period. Reference: AC-27/p03-full-005117.

Handoff instruction

Preserve the control label. if a stale intake reference appears, it would obscure the control basis. the record-specific safeguard is to place the missing fact in the control-owner queue; that preserves an accountable decision without inventing a missing fact.. Route the unresolved fact to the GRC owner with this artifact reference. The report requests no elevated access, customer data, or execution instruction.
