

AC-27 Assurance Report: Evidence interpretation

Record reference: AC-27/p03-full-005817
Assigned review context: 2026-07-14

Evidence interpretation

The report asks whether the review-date field provides enough basis for a review-cadence check. It is synthetic defensive GRC evidence for Cobalt Harbor Systems and makes no Kio indexing, search, or readiness claim.

Review logic

Control evidence should contain only fields needed for an accountable review decision. For this record, the reasoned result is retain with a case link. Assigned period: 2026-07-14; source period: 2026 Q3. These remain separate facts, so the assigned context never replaces the source record period. Reference: AC-27/p03-full-005817.

Required follow-through

Review the owner field before routing. if an unnamed handoff recipient appears, it would weaken the closure rationale. the record-specific safeguard is to limit the record to the decision-bearing fields; that preserves an accountable decision without inventing a missing fact.. Remove repeated export fields after reviewer confirmation. The report requests no elevated access, customer data, or execution instruction.
