

AC-27 Assurance Report: Evidence interpretation

Record reference: AC-27/p03-full-004491
Assigned review context: 2026-07-14

Evidence interpretation

The report asks whether the evidence-set marker provides enough basis for a queue-transfer check. It is synthetic defensive GRC evidence for Cobalt Harbor Systems and makes no Kio indexing, search, or readiness claim.

Closure implication

Control evidence should contain only fields needed for an accountable review decision. For this record, the reasoned result is record as review-complete. Assigned period: 2026-07-14; source period: 2026 Q3. These remain separate facts, so the assigned context never replaces the source record period. Reference: AC-27/p03-full-004491.

Reviewer follow-up

Name the accountable reviewer. if a late review-date entry appears, it would make ownership unclear. the record-specific safeguard is to limit the record to the decision-bearing fields; that preserves an accountable decision without inventing a missing fact.. Remove repeated export fields after reviewer confirmation. The report requests no elevated access, customer data, or execution instruction.
