

AC-27 Assurance Report: Record reading

Record reference: AC-27/p03-full-008690

Assigned review context: 2026-07-14

Record reading

The report asks whether the queue owner provides enough basis for a closure handoff check. It is synthetic defensive GRC evidence for Cobalt Harbor Systems and makes no Kio indexing, search, or readiness claim.

Decision basis

A disposition is useful only when it can be read alongside the originating record. For this record, the reasoned result is hold for clarification. Assigned period: 2026-07-14; source period: 2026-07-15. These remain separate facts, so the assigned context never replaces the source record period. Reference: AC-27/p03-full-008690.

Queue instruction

Remove redundant fields after sign-off. if an ambiguous case label appears, it would undermine the disposition trail. the record-specific safeguard is to ask the named reviewer for confirmation; that preserves an accountable decision without inventing a missing fact.. Ask the owner to supply a bounded disposition reference if absent. The report requests no elevated access, customer data, or execution instruction.
