

AC-27 Assurance Report: Review rationale

Record reference: AC-27/p03-full-009364

Assigned review context: 2026-07-15

Review rationale

The report asks whether the queue owner provides enough basis for a queue-transfer check. It is synthetic defensive GRC evidence for Cobalt Harbor Systems and makes no Kio indexing, search, or readiness claim.

Why this matters now

The evidence chain must retain the case or marker needed for the next GRC reviewer. For this record, the reasoned result is ask for owner confirmation. Assigned period: 2026-07-15; source period: 2026-07-14. These remain separate facts, so the assigned context never replaces the source record period. Reference: AC-27/p03-full-009364.

Routing outcome

Route the missing fact to grc. if a late review-date entry appears, it would leave the next reviewer without context. the record-specific safeguard is to keep the evidence slice with its disposition; that preserves an accountable decision without inventing a missing fact.. Carry the named marker into the closure handoff. The report requests no elevated access, customer data, or execution instruction.
