

AC-27 Assurance Report: Routing premise

Record reference: AC-27/p03-full-008564

Assigned review context: 2026-07-20

Routing premise

The report asks whether the handoff marker provides enough basis for a control-reference check. It is synthetic defensive GRC evidence for Cobalt Harbor Systems and makes no Kio indexing, search, or readiness claim.

record id	INB-011
review date	2026-07-13
control	AC-27
audit request	AR-260713-027
case	CASE-260713-184
evidence set	184
risk	RISK-031
disposition	synthetic intake normalized; bounded review retained
unique marker	foundation-b001-011
content spine traceability	org.cobalt-harbor=Cobalt Harbor Systems date.2026-07-13=2026-07-13 primary review date

Why this matters now

A disposition is useful only when it can be read alongside the originating record. For this record, the reasoned result is return to the intake queue. Assigned period: 2026-07-20; source period: 2026-07-13. These remain separate facts, so the assigned context never replaces the source record period. Reference: AC-27/p03-full-008564.

Exception treatment

Remove redundant fields after sign-off. if a late review-date entry appears, it would widen the retention boundary. the record-specific safeguard is to retain the discrepancy as a bounded exception; that preserves an accountable decision without inventing a missing fact.. Ask the owner to supply a bounded disposition reference if absent. The report requests no elevated access, customer data, or execution instruction.
