

AC-27 Assurance Report: Control lens

Record reference: AC-27/p03-full-005317

Assigned review context: 2026 Q3

Control lens

The report asks whether the period label provides enough basis for a closure handoff check. It is synthetic defensive GRC evidence for Cobalt Harbor Systems and makes no Kio indexing, search, or readiness claim.

Record-specific assessment

The assigned review period is a control context, while the dependency period is a source fact. For this record, the reasoned result is retain with confirmation. Assigned period: 2026 Q3; source period: 2026-07-14. These remain separate facts, so the assigned context never replaces the source record period. Reference: AC-27/p03-full-005317.

Accountable next step

Remove redundant fields after sign-off. if an unbound attachment marker appears, it would make ownership unclear. the record-specific safeguard is to preserve the linkage in the review rationale; that preserves an accountable decision without inventing a missing fact.. Record any period variance as an exception rather than overwriting the source. The report requests no elevated access, customer data, or execution instruction.
