Review logic

The evidence chain must retain the case or marker needed for the next GRC reviewer. For this record, the reasoned result is keep as a control reference. Assigned period: 2026 Q3; source period: 2026-07-20. These remain separate facts, so the assigned context never replaces the source record period. Reference: AC-27/p03-full-008290.

Accountable next step

Name the accountable reviewer. if an unbound attachment marker appears, it would make ownership unclear. the record-specific safeguard is to retain the discrepancy as a bounded exception; that preserves an accountable decision without inventing a missing fact.. Carry the named marker into the closure handoff. The report requests no elevated access, customer data, or execution instruction.
