Queue implication

The evidence chain must retain the case or marker needed for the next GRC reviewer. For this record, the reasoned result is record as review-complete. Assigned period: 2026 Q3; source period: 2026-07-14. These remain separate facts, so the assigned context never replaces the source record period. Reference: AC-27/p03-full-006964.

Accountable next step

Record the rationale beside the disposition. if a detached evidence-set value appears, it would undermine the disposition trail. the record-specific safeguard is to preserve the linkage in the review rationale; that preserves an accountable decision without inventing a missing fact.. Carry the named marker into the closure handoff. The report requests no elevated access, customer data, or execution instruction.
