

Assessment Scope Review Assurance Report

Cobalt Harbor Systems | Aegis Control AC-27 | synthetic Privacy Assurance evidence

Review reference	p03-full-002770
Foundation dependency	p03-full-002456
Foundation context	artifact_source p03-src-002456 data-use 2026-07-13
Residual rating	RISK-031: Medium after compensating review

Purpose

This assurance report documents a bounded privacy-risk review of synthetic AC-27 evidence. It is not a legal opinion and does not represent a live audit or security incident.

Evidence assessment

The linked foundation record supports 48 synthetic privileged-role records, 97.9% timely attestation before compensating review, 100.0% final completion, and 24 of 24 required evidence items verified.

Privacy boundary

Privacy Assurance confirmed that the packet is minimized and contains no personal records. The review is limited to governance evidence and does not grant access to operating systems or data sources.

Conclusion

The evidence supports retention of the stated Medium residual rating for RISK-031 after bounded remediation. Record the review in the Aegis register and retain the synthetic evidence under the 18-month minimum.

Traceability

Foundation conclusion: analytical_conclusion | Record 2456 concludes that data-use requires a bounded AC-27 evidence review for 2026-07-13; RISK-031 remains Medium after the compensating review | with no personal records in scope. | bounded review conclusion | org.cobalt-harbor | measure.residual-rating | rel.privacy.vendor | date.2026-07-13 | term.no-kio-claim
