

Privacy Assurance Report 008738

Cobalt Harbor Systems | Aegis Control AC-27 | synthetic defensive evidence

Assigned review period: 2026-07-20

Review focus: assessment scope review

Determination

Artifact 008738 is a synthetic Cobalt Harbor Systems privacy assurance record for assessment scope review.

Assigned review period: 2026-07-20. It is distinct from the direct dependency source period(s): 2026-07-14.

Review question: Whether a later assessment-scope report can rely on its cited evidence without representing the source as contemporaneous.

Evidence selection: Select the direct foundation record, its review-period field, and the report’s assigned follow-up date.

Ordered test and counterexample: Test provenance order, then challenge the counterexample that source and follow-up dates are interchangeable.

Observation: The follow-up uses historical evidence with explicit provenance.

Decision and action owner/timing: Privacy Assurance documents the follow-up finding; GRC schedules any clarification after closure review.

Boundary: the record is synthetic defensive GRC documentation only and makes no Kio indexing, search, history, or performance claim.

Direct dependency p03-full-000152 (2026-07-14) states: Record 152 concludes that data-use requires a bounded AC-27 evidence review for 2026-07-14; RISK-031 remains Medium after the compensating review, with no personal records in scope.

Direct dependency facts

Dependency	Source period	Source determination
p03-full-000152	2026-07-14	Record 152 concludes that data-use requires a bounded AC-27 evidence review for 2026-07-14; RISK-031 remains Medium after the compensating review, with no personal records in scope.

Privacy boundary: minimized synthetic evidence only; no personal records, live-system data, or Kio indexing/search/history/performance claim.
