

Privacy Assurance Report 004891

Cobalt Harbor Systems | Aegis Control AC-27 | synthetic defensive evidence

Assigned review period: 2026-07-20

Review focus: treatment review

Determination

Artifact 004891 is a synthetic Cobalt Harbor Systems privacy assurance record for treatment review.

Assigned review period: 2026-07-20. It is distinct from the direct dependency source period(s): 2026-07-20.

Review question: Whether a treatment-review report records an action-owner acknowledgement rather than an unsupported control-effectiveness conclusion.

Evidence selection: Select the treatment evidence record and its acknowledgement field.

Ordered test and counterexample: Test owner acknowledgement first, then falsify the inference that acknowledgement proves operating effectiveness.

Observation: The evidence supports acknowledgement, not a live effectiveness claim.

Decision and action owner/timing: Privacy Assurance sends the bounded finding to the action owner for the next scheduled review.

Boundary: the record is synthetic defensive GRC documentation only and makes no Kio indexing, search, history, or performance claim.

Direct dependency p03-full-001983 (2026-07-20) states: Record 1983 concludes that treatment review requires a bounded AC-27 evidence review for 2026-07-20; RISK-031 remains Medium after the compensating review, with no personal records in scope.

Direct dependency facts

Dependency	Source period	Source determination
p03-full-001983	2026-07-20	Record 1983 concludes that treatment review requires a bounded AC-27 evidence review for 2026-07-20; RISK-031 remains Medium after the compensating review, with no personal records in scope.

Privacy boundary: minimized synthetic evidence only; no personal records, live-system data, or Kio indexing/search/history/performance claim.
