

Privacy Assurance Report 002898

Cobalt Harbor Systems | Aegis Control AC-27 | synthetic defensive evidence

Assigned review period: 2026 Q3 planning period (2026-07-01 through 2026-09-30)

Review focus: assessment scope review

Determination

Artifact 002898 is a synthetic Cobalt Harbor Systems privacy assurance record for assessment scope review.

Assigned review period: 2026 Q3 planning period (2026-07-01 through 2026-09-30). It is distinct from the direct dependency source period(s): 2026-07-13.

Review question: Whether an assessment-scope report uses its direct evidence to frame a planning-period question rather than a closure decision.

Evidence selection: Select the source’s bounded metrics and the Q3 assignment period.

Ordered test and counterexample: Compare purpose labels, then test the counterexample that a planning report can close an exception.

Observation: The report supports planning context only.

Decision and action owner/timing: Privacy Assurance retains the planning question; the control owner decides closure on the source-record process.

Boundary: the record is synthetic defensive GRC documentation only and makes no Kio indexing, search, history, or performance claim.

Direct dependency p03-full-001896 (2026-07-13) states: Record 1896 concludes that data-use requires a bounded AC-27 evidence review for 2026-07-13; RISK-031 remains Medium after the compensating review, with no personal records in scope.

Direct dependency facts

Dependency	Source period	Source determination
p03-full-001896	2026-07-13	Record 1896 concludes that data-use requires a bounded AC-27 evidence review for 2026-07-13; RISK-031 remains Medium after the compensating review, with no personal records in scope.

Privacy boundary: minimized synthetic evidence only; no personal records, live-system data, or Kio indexing/search/history/performance claim.
