

Privacy Assurance Report 007238

Cobalt Harbor Systems | Aegis Control AC-27 | synthetic defensive evidence

Assigned review period: 2026 Q3 planning period (2026-07-01 through 2026-09-30)

Review focus: assessment scope review

Determination

Artifact 007238 is a synthetic Cobalt Harbor Systems privacy assurance record for assessment scope review.

Assigned review period: 2026 Q3 planning period (2026-07-01 through 2026-09-30). It is distinct from the direct dependency source period(s): 2026-07-14.

Review question: Whether the assessment-scope follow-up identifies a documentation gap while preserving the compensating-review history.

Evidence selection: Use the evidence metric and exception linkage from the direct record.

Ordered test and counterexample: Trace exception linkage, then test the counterexample that compensating review rewrites the missed attestation.

Observation: The historical gap remains visible after mitigation.

Decision and action owner/timing: The control owner confirms the documented history at the next retention disposition check.

Boundary: the record is synthetic defensive GRC documentation only and makes no Kio indexing, search, history, or performance claim.

Direct dependency p03-full-000152 (2026-07-14) states: Record 152 concludes that data-use requires a bounded AC-27 evidence review for 2026-07-14; RISK-031 remains Medium after the compensating review, with no personal records in scope.

Direct dependency facts

Dependency	Source period	Source determination
p03-full-000152	2026-07-14	Record 152 concludes that data-use requires a bounded AC-27 evidence review for 2026-07-14; RISK-031 remains Medium after the compensating review, with no personal records in scope.

Privacy boundary: minimized synthetic evidence only; no personal records, live-system data, or Kio indexing/search/history/performance claim.
