

Privacy Assurance Report 007938

Cobalt Harbor Systems | Aegis Control AC-27 | synthetic defensive evidence

Assigned review period: 2026 Q3 planning period (2026-07-01 through 2026-09-30)

Review focus: assessment scope review

Determination

Artifact 007938 is a synthetic Cobalt Harbor Systems privacy assurance record for assessment scope review.

Assigned review period: 2026 Q3 planning period (2026-07-01 through 2026-09-30). It is distinct from the direct dependency source period(s): 2026-07-13.

Review question: Whether a Q3 assessment report distinguishes retention planning from the evidence-set disposition already documented elsewhere.

Evidence selection: Use the direct metric source and the separate retention-decision boundary.

Ordered test and counterexample: Test disposition wording, then challenge the counterexample that a report may re-decide retention.

Observation: The report references context without issuing a second disposition.

Decision and action owner/timing: GRC maintains the evidence register; Privacy Assurance revisits the planning note in the next quarter.

Boundary: the record is synthetic defensive GRC documentation only and makes no Kio indexing, search, history, or performance claim.

Direct dependency p03-full-001896 (2026-07-13) states: Record 1896 concludes that data-use requires a bounded AC-27 evidence review for 2026-07-13; RISK-031 remains Medium after the compensating review, with no personal records in scope.

Direct dependency facts

Dependency	Source period	Source determination
p03-full-001896	2026-07-13	Record 1896 concludes that data-use requires a bounded AC-27 evidence review for 2026-07-13; RISK-031 remains Medium after the compensating review, with no personal records in scope.

Privacy boundary: minimized synthetic evidence only; no personal records, live-system data, or Kio indexing/search/history/performance claim.
