Review narrative

Cobalt Harbor reviewed the assigned evidence for RISK-031 during review date 2026-07-20. The review connects the

record to AC-27 / Evidence Set 184 so that a reviewer can understand why the evidence is retained and how it

supports the control decision.

Traceability and handling

The record is identified as p03-full-007791 and is associated with source p03-src-007791. Its upstream dependency is

p03-full-001285 (source p03-src-001285). The dependency is cited as a provenance link, not as an instruction to

execute, contact, or retrieve anything.

Evidence boundary

This is a documentary assurance artifact. No Kio capability is asserted, no credential is present, and no external

endpoint is contacted. The reviewer should use the cited relationship and dependency only to reconcile the offline

evidence set.

Artifact-specific analysis

In business continuity testing, the assessor applied evidence sufficiency to the record. The review considered whether the evidence documented in Assurance Evidence Review supports the RISK-031 assurance decision. The documented outcome is that Cobalt Harbor documented the control conclusion for Assurance Evidence Review. The limiting counterexample is that the record distinguishes offline documentary evidence from an instruction to operate a system. Provenance qualified relevance; reliability constrained coverage; and recovery informed exercise. The evidence method corroborated source custody, tested closure criteria, and established provenance confidence.

Declared control context

The review timing is 2026-07-20.

Cobalt Harbor owns the documented assurance review.

The evidence relationship is privacy vendor.

Declared control context: team vendor-risk.

The evidence is offline and makes no Kio capability claim.
