

Account Beta Call Recap

Commercial planning follow-up | 2026-09-18

What we heard

Account Beta needs adoption evidence and budget timing before any renewal action. Procurement asked that commercial figures remain non-binding planning inputs.

Working plan

The shared planning target is USD 186,000, with a target renewal date of 2026-09-30 and a contemplated term from 2026-10-01 through 2027-09-30.

Next steps

Northstar will provide the previously discussed adoption and approved security reference materials. Account Beta will advise whether a further planning meeting is useful. No approval has been given.
