

Account Beta proposal handout

Northstar Cloud | Account Beta | Synthetic internal scenario

The outcome

A focused workflow program designed to create capacity, clarity, and a repeatable operating rhythm.

Working hypothesis

A 25% workflow-reduction estimate and 10-week onboarding sequence are internal scenario estimates to validate jointly.

Planning frame

Target decision: 30 September 2026. Planning amount: USD 186,000 for 1 October 2026 through 30 September 2027. Not yet approved.

Next step

Confirm workshop sponsors, validate the baseline, and choose a pilot path.
