Decision review 2026-07-17 | Non-binding, unsigned negotiation material

## Decision snapshot

|              |                                                                           |
|--------------|---------------------------------------------------------------------------|
| Package      | Enterprise USD 210,000; Success Plus USD 24,000; Data Connect USD 14,000. |
| Annual total | USD 248,000.                                                              |
| Term         | 2026-07-18 through 2027-07-17.                                            |

## Proposed response

|            |                                                                                                                                            |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Payment    | Annual invoice in advance; net 30 for undisputed amounts. Fallback: net 45 with annual prepayment.                                         |
| Renewal    | 60-day written non-renewal notice. Fallback: 45 days.                                                                                      |
| Service    | 99.9% monthly objective; no service credits in this draft.                                                                                 |
| Data       | DPA applies to service processing; no certification claim. Open: subprocessors, deletion, incident, audit.                                 |
| Liability  | Fees paid or payable in the 12 months before claim. Fallback: one times annual fees for mutual confidentiality and data-protection claims. |
| Precedence | DPA, then order form, then base agreement for conflicting subjects.                                                                        |

## Draft notice

Synthetic, unsigned, and non-binding. It is not legal advice or an executed agreement.
