

Customer Requirements Packet

Account Alpha | Downloaded 17 July 2026 | RFP clarification reference

Purpose

This fictional packet records the customer-facing requirements supplied for the Account Alpha procurement review. It is safe training content and does not contain production configuration, credentials, or customer data.

Commercial summary

Line item	Approved amount (USD)
Subscription	210,000
Implementation support	24,000
Enablement	14,000
Approved working total	248,000

Review requirements

1. Provide a written clarification for scope assumptions and procurement routing. 2. Include standard implementation support and enablement descriptions. 3. Keep legal review limited to the contract redline and standard data-processing language. 4. Do not request or transmit access credentials, production records, or private customer material.

Delivery and review agenda

Requested materials

The response package should include the RFP clarification, commercial schedule, legal redline, and a customer-supplied meeting agenda. Each artifact should use the Account Alpha reference and the approved USD 248,000 total.

Review contacts

Procurement: Rowan Mercer, Northstar Cloud. Customer contact: Avery Sloan, Account Alpha. Legal operations: Morgan Hale, Northstar Cloud.

Acceptance checks

Confirm that the total equals USD 248,000 (USD 210,000 subscription + USD 24,000 implementation support + USD 14,000 enablement), that the decision date target is 24 July 2026, and that all content remains fictional and safe for training.
