

AC-27 Policy Assurance Report

Cobalt Harbor Systems | Retention | 2026-07-15 | Artifact p03-full-004425

Assurance conclusion

This report evaluates the synthetic retention policy record against Aegis Control AC-27. The assessment is grounded in scope-local dependency p03-full-002307, containing 2 tabular data rows. It confirms that evidence set 184 is complete (24 of 24 required synthetic items) and that the review package is bounded to fictional governance evidence.

Review lens - residual-risk treatment: Confirm that RISK-031 remains residual Medium after treatment and is not presented as an incident.

Control reference	Observed synthetic basis
AC-27	Quarterly access-review approval, retention, and exception disposition
RISK-031	Residual Medium after the documented compensating review
Exception	EXC-260713-006 closed after one calendar day
Evidence record	p03-full-002307
Disposition	DEC-260713-004: retain per synthetic schedule

Review actions and safeguards

1. Validate that the policy maps to evidence-backed review obligations.
2. Preserve preparer/reviewer role separation for any exception disposition.
3. Retain the bounded evidence package for at least 18 months under the synthetic schedule.
4. Treat this report as physical-artifact evidence only; it makes no Kio indexing, history, chunk, search, or performance claim.
