

2026 Q3 Policy Exception Handling

Synthetic defensive GRC assurance report - Cobalt Harbor Systems

Review identity

Artifact reference:	p03-full-008498
Assigned review period:	2026-Q3 (2026-07-01 to 2026-09-30)
Direct source record:	p03-full-001018 / p03-src-001018
Source record date:	2026-07-13

Question and test

Causal question: does this 2026 q3 policy exception handling report correctly apply the source evidence to no-incident boundary, while keeping the assigned review period separate from the source date?

Ordered procedure: first separate governance risk from incident language; then compare the source control, case, package, numerator, denominator, residual rating and decision; finally test the counterexample: Calling the source an incident would contradict its classification.

Readable source facts

Organization:	Cobalt Harbor Systems
Source topic:	2026 07 13 Policy Exception Handling Evidence Metrics Tsv S001018
Source focus:	Synthetic policy evidence metrics
Source classification:	Control-evidence measurement record
Parsed locator:	Compliance policies / foundation data
Control:	Aegis Control AC-27
Case:	CASE-260713-184
Evidence package:	Evidence set 184
Review population:	48 synthetic privileged-role records
Timely attestations:	47 of 48
Final completion:	48 of 48
Risk and residual rating:	RISK-031 / Medium
Retention minimum:	18 months
Decision:	DEC-260713-004
Action handling:	Metrics record supports decision review; it assigns no action owner
Source sequence:	22

Interpretation and follow-up

Interpretation

Observation: the direct record names Aegis Control AC-27 for CASE-260713-184, evidence set 184, source sequence 22, and 48 final completions from 48 synthetic roles. For no-incident boundary, the source date remains 2026-07-13; this report's assigned period is 2026-Q3 (2026-07-01 to 2026-09-30).

Finding

Finding 008498: supports a reviewable closure narrative for the specific issue of no-incident boundary. The evidence supports a governance conclusion because timely attestations are 47 while final completion is 48; the stated residual rating remains Medium, not an incident or access assertion.

Disposition and follow-up

Disposition: retain this bounded synthetic record under DEC-260713-004 for 18 months. Owner and timing action: GRC should screen the final wording for incident implications before publishing the 2026 q3 policy exception handling note. Any variance is recorded against RISK-031 without altering the direct source record.
