Question and test

Causal question: does this 2026 q3 policy retention report correctly apply the source evidence to retention title scope, while keeping the assigned review period separate from the source date?

Ordered procedure: first test retention wording without converting it to legal advice; then compare the source control, case, package, numerator, denominator, residual rating and decision; finally test the counterexample: The stated duration is a corpus fact, not a legal mandate.

Interpretation and follow-up

Interpretation

Observation: the direct record names Aegis Control AC-27 for CASE-260713-184, evidence set 184, source sequence 10, and 48 final completions from 48 synthetic roles. For retention title scope, the source date remains 2026-07-20; this report's assigned period is 2026-Q3 (2026-07-01 to 2026-09-30).

Finding

Finding 007837: confirms a bounded exception route for the specific issue of retention title scope. The evidence supports a governance conclusion because timely attestations are 47 while final completion is 48; the stated residual rating remains Medium, not an incident or access assertion.

Disposition and follow-up

Disposition: retain this bounded synthetic record under DEC-260713-004 for 18 months. Owner and timing action: GRC should label the retention conclusion as synthetic before publishing the 2026 q3 policy retention note. Any variance is recorded against RISK-031 without altering the direct source record.
