
Synthetic Data Handling Guideline

SC-ALPHA-GOV-26 | Snapshot 2026-09-02 | Synthetic cohort: 48

Purpose. A handling guide that keeps fictional study materials visibly synthetic.

All examples are synthetic. The 2.5 mg threshold is protocol governance, not medical advice.

Allowed content

Invented study labels, fictional record codes, aggregate synthetic cohort counts, and original explanatory text are allowed.

Prohibited content

Do not include real PHI, real staff or facility data, credentials, copied standards, or clinical results.

Retention and sharing

Use the project folder, preserve version context, and label exports as synthetic reference material.
