

# Submission Packet Index

Sakura Clinical | Study Alpha 2026 | fictional training packet

|                      |                                  |
|----------------------|----------------------------------|
| Packet ID            | SC-ALPHA-2026-SYN-0902-48        |
| Snapshot             | 2026-09-02                       |
| Recipient simulation | Aurora Review Office (fictional) |

## Included materials

| Item                    | Purpose                                 | Format   |
|-------------------------|-----------------------------------------|----------|
| Cover                   | Training packet orientation             | DOCX     |
| Benefit-risk summary    | Synthetic endpoint and safety context   | PDF      |
| Receipt acknowledgement | Fictional image-only receipt simulation | PDF scan |
| Response to questions   | Fictional clarification response        | DOCX     |
| Signature page          | Non-signature training-page simulation  | PDF scan |
| Build log               | Synthetic assembly record               | TXT      |
| Metadata                | Training packet metadata                | XML      |
| Dataset description     | Synthetic-data constraints              | DOCX     |
| Validation summary      | Training validation observations        | PDF      |

## Index note

Every listed item is fictional and synthetic. The index supports filing-simulation exercises only and is not evidence of a real submission or receipt.
