

Study Alpha Synthetic Analysis Report

Orchid Cellworks | Study Alpha | 2026-07-13 | cohort A-24 | assay 6.8 ng/mL

Executive result

The fabricated cohort A-24 records have a median assay result of 6.8 ng/mL. This is a synthetic analytical example.

Methods

Protocol run ALPHA-A24-R03 is evaluated with deterministic summary statistics and duplicate-level quality checks.

Metric	Result	Decision
Synthetic cohort size	24	Retained
Median assay	6.8 ng/mL	Within target
Duplicate CV	4.7%	Pass
Recovery	98.6%	Pass

Synthetic-data notice: all identifiers, measurements, runs, and results are fabricated for corpus production; no PHI, PII, or live research records are present.
