

# Study Alpha Raw Export QC Report

Orchid Cellworks | Study Alpha | 2026-07-13 | cohort A-24 | assay 6.8 ng/mL

## Release decision

Synthetic export is coherent and ready for fictional review. Duplicate replicate CV values remain under 10%.

| Metric       | Threshold           | Observed  | Status |
|--------------|---------------------|-----------|--------|
| Median assay | reference 6.8 ng/mL | 6.8 ng/mL | PASS   |
| Blank        | <= 0.05 AU          | 0.02 AU   | PASS   |
| Sample count | 24                  | 24        | PASS   |

## Traceability

The transfer examples use documentation-only address ranges and contain no real endpoints or payloads.

| Record         | Value            |
