

Sample Manifest Audit Report

Synthetic inventory reconciliation - 2026-07-13

Purpose

This report documents a wholly synthetic reconciliation of the Study Alpha inventory for cohort A-24. No patient, donor, clinical, or real laboratory records are used. The simulated QC reference is assay 6.8 ng/mL.

Control	Result	Evidence
Manifest structure	PASS	24 synthetic records; required identifiers present
Storage map	PASS	BX-A1 through BX-A3 reconcile to FZ-02/R1
Volume range	PASS	165 to 190 uL per record
Status allocation	PASS	16 available; 8 reserved
Privacy boundary	PASS	Synthetic aliases only; no PHI or PII

Record-level spot check

Sample ID	Box	Position	Volume (uL)	Status
OCW-A24-001	BX-A1	A01	180	available
OCW-A24-002	BX-A1	A02	175	available
OCW-A24-003	BX-A1	A03	185	available
OCW-A24-004	BX-A1	A04	170	available
OCW-A24-005	BX-A1	A05	190	available
OCW-A24-006	BX-A1	A06	180	available
OCW-A24-007	BX-A1	A07	165	available
OCW-A24-008	BX-A1	A08	185	available
OCW-A24-009	BX-A2	B01	180	available
OCW-A24-010	BX-A2	B02	175	available
OCW-A24-011	BX-A2	B03	185	available
OCW-A24-012	BX-A2	B04	170	available
OCW-A24-013	BX-A2	B05	190	available
OCW-A24-014	BX-A2	B06	180	available
OCW-A24-015	BX-A2	B07	165	available
OCW-A24-016	BX-A2	B08	185	available

Sample ID	Box	Position	Volume (uL)	Status
OCW-A24-017	BX-A3	C01	180	reserved
OCW-A24-018	BX-A3	C02	175	reserved
OCW-A24-019	BX-A3	C03	185	reserved
OCW-A24-020	BX-A3	C04	170	reserved
OCW-A24-021	BX-A3	C05	190	reserved
OCW-A24-022	BX-A3	C06	180	reserved
OCW-A24-023	BX-A3	C07	165	reserved
OCW-A24-024	BX-A3	C08	185	reserved

Audit conclusion

The synthetic Study Alpha manifest is internally coherent.

All 24 fabricated records use the OCW-A24 identifier pattern, map to a defined container and rack coordinate, and carry typed inventory volumes. The manifest, operational CSV, and workbook use the same controlled vocabulary. This report is an operational QA artifact only and must not be interpreted as a clinical, regulatory, or biological result.

Release conditions

1. Preserve the synthetic-only designation. 2. Reconcile status changes using the JSON manifest as the authoritative record. 3. Retain the 2026-07-13 review date and QC anchor in future synthetic training exports. 4. Escalate any unrecognized identifier before it is added to the inventory.
