

Humanities Data Citation Handbook

Reference copy for the Linden Archive Project

Purpose

This wholly synthetic reference supports the Linden Correspondence Series at the fictional Haldenmere Civic Repository. It records a working method rather than an external authority. The project snapshot is 2026-07-13; the example reference is Box 14, folio 184, citation LA-042.

Citation sequence

Use a stable local key, then state repository, box, folio, date, and editorial status. For LA-042, cite the synthetic item as LA-SRC-B14-F184, Box 14, folio 184, 1907-03-16.

Version note

A transcription, translation, and image are related but distinct representations. Record uncertainty with the project editorial conventions; do not silently repair readings.

Field	Example
Project	Linden Archive Project
Repository	Haldenmere Civic Repository
Locator	Box 14, folio 184
Citation key	citation LA-042
Snapshot	2026-07-13
