Linden Archive Project: a synthetic synthesis sheet

Focal collection	Review date	Classification
Box 14 / Linden Correspondence Series	2026-07-13	wholly synthetic

SYNTHESIS

The note set treats the linden as a figure for shared attention. Folio 184 supplies the clearest formulation: “The linden's shade keeps the town's many tongues in one patient circle.”

EVIDENCE HIERARCHY

Direct visual observations are separated from motif comparisons and editorial hypotheses. The codebook requires UNC where the reading remains unsettled.

HANDOFF
