

Monthly Quality Summary

ForgeLine | Product Alpha | 2026-08-11 | NCR-026 | tolerance ± 0.18 mm

Review purpose

This synthetic summary consolidates the 2026-08-11 review of Product Alpha dimensional controls. It is a training record for ForgeLine and is not a production release authorization.

Control status

Control	Observed status	Decision
Dimensional tolerance	± 0.18 mm retained	Continue verification
NCR-026	Containment review completed	Track follow-up
Product Beta	Verification planned	Review next cycle

Next review

The manufacturing quality engineer will compare the next verification sample with the controlled issue register and record the result in the synthetic archive. No supplier, customer, employee, or credential information is included.
