

Post-Closure Monitoring Plan

Monitor the first three released Product Alpha lots after corrective actions.

Checkpoint	Measure	Accept criterion
Lot 1 review	Ten locator readings	All within +/-0.18 mm
Lot 2 review	Ten locator readings	All within +/-0.18 mm
Lot 3 review	Ten locator readings	All within +/-0.18 mm

A recurrence of NCR-026 or any out-of-tolerance reading requires immediate containment and CAPA review.
