

Measurement Series: +/- 0.18 mm

ForgeLine | Product Alpha | 2026-08-11 | NCR-026 | acceptance tolerance +/- 0.18 mm

Dimensional verification record

Purpose

This controlled synthetic record summarizes Product Alpha dimensional measurements taken after fixture confirmation on 2026-08-11.

Method

Ten parts were measured at datum A using a verified digital caliper. Results are compared with the nominal width of 10.00 mm and the defined acceptance band.

Conclusion

All listed readings remain inside the permitted +/- 0.18 mm band. No additional containment is required for this measurement series.

Sample	Measured width	Deviation	Result
PA-01	10.02 mm	+0.02 mm	Accept
PA-02	9.96 mm	-0.04 mm	Accept
PA-03	10.08 mm	+0.08 mm	Accept
PA-04	10.11 mm	+0.11 mm	Accept
PA-05	9.93 mm	-0.07 mm	Accept
