

API-A7-3223 API contract assurance

Aster Loop Product Engineering - synthetic searchable contract evidence

Contract	API-A7-3223
Artifact	p01-full-003223
Source	p01-src-003223
Dependency	p01-full-005067
Release	Product Alpha R7 (ALPHA-R7)
Review date	2026-07-20
Target p95	200 ms
Reference p95	184 ms accepted release-gate observation

Purpose

This one-page assurance note records the reviewed evidence snapshot interface for Product Alpha R7. It is tied to p01-src-003223 and final artifact p01-full-003223. The supplied dependency p01-full-005067 is the scope-local engineering input used for reconciliation.

Compatibility and release policy

The API follows additive-before-removal compatibility. ADR-042 retains the asynchronous release gate. The 200 ms p95 is a target; 184 ms is the accepted shared release-gate reference and is not an endpoint measurement.

Review outcome

Contract API-A7-3223 is reviewed on 2026-07-20. This document uses only synthetic Aster Loop facts and contains no customer data, credentials, production addresses, or personal information.
