

Architecture evidence brief - p01-src-008436

Aster Loop | Product Alpha R7 | Release-gate architecture

Artifact ID: p01-full-008436
Dependency record: p01-full-006799
Evidence date: 2026-07-13

Control	Evidence
Decision	ADR-042 keeps the asynchronous release gate
Boundary	Release Coordinator to Decision Store
Observed p95	184 ms
Target	200 ms
Review state	reviewed

Synthetic engineering evidence for source p01-src-008436 uses dependency p01-full-006799. Event Bus delivery follows the gate decision and Observability confirmation closes the measured path.
