

Synthetic Engineering Export Report — EXP-26Q3-005823

Generated 2026-08-28T08:21:00+09:00 · Aster Loop■■■■ · downloads/exports

Evidence reconciliation

This searchable synthetic report is derived from same-scope export p01-full-002269. It records Product Beta R4 with lifecycle state closed and a 225 ms engineering anchor. The report is a transport representation and does not replace the base record.

Field	Value
Export ID	EXP-26Q3-005823
Source ID	p01-src-005823
Dependency	p01-full-002269
Generated	2026-08-28T08:21:00+09:00
Status	closed
Latency anchor	225 ms

Controlled terminology

Approval boundary, non-approved, and rollback drill retain their p01 content-spine meanings. All identities and measurements are synthetic and internally consistent.
