

MTG-ENG-20260817-38 - Meeting Evidence

Aster Loop■■■■■ | Product Engineering | synthetic record

Decision context

Reference: ADR-042

Base record: engineering-meeting-yaml-src-006712.yaml

The meeting records an evidence-based review of an engineering follow-up.

The release-gate and approval-boundary terminology is retained consistently.

No incident, customer record, or credential is represented in this synthetic artifact.
