

Aegis Control AC-27 Evidence Handling Policy

Evidence custody

OWNER	Security & GRC
EFFECTIVE	2026-07-13
REVIEW CYCLE	Annual or material change
CLASSIFICATION	Internal

1. Purpose and scope

This policy establishes how Cobalt Harbor Systems ensures that control evidence is collected, indexed, and preserved for independent review. It applies to personnel and approved providers performing the governed activity. Cobalt Harbor applies Aegis Control AC-27 to evidence set 184 on 2026-07-13 for RISK-031.

2. Control objectives

Objective A. Establish accountable, repeatable operating decisions for evidence custody.

Objective B. Produce evidence that supports independent assurance and timely remediation.

3. Required operating practices

1. Plan the activity with documented scope, owner, and timing appropriate to evidence custody.
2. Execute and record the activity using the required evidence attributes: source, collection time, custody chain, integrity hash, and reviewer disposition.
3. Review exceptions and changes before they affect the control conclusion.
4. Preserve decisions and evidence in the approved repository for the stated retention period.

4. Accountability

ROLE	RESPONSIBILITY
Control owner	Carries the assigned decision, review, or recordkeeping responsibility.
Evidence custodian	Carries the assigned decision, review, or recordkeeping responsibility.
Security & GRC	Carries the assigned decision, review, or recordkeeping responsibility.

Evidence custody: assurance criteria

5. Evidence standard

The accountable owner retains evidence that is sufficient to demonstrate the operating result. At minimum, each record includes: source, collection time, custody chain, integrity hash, and reviewer disposition. Evidence is linked to the applicable system, review period, owner, and disposition so another qualified reviewer can reproduce the conclusion.

6. Measurement and reporting

MEASURE	OPERATING THRESHOLD
Primary metric	100% of sampled evidence sets have a custodian and immutable index entry
Quality review	Evidence completeness and sampled accuracy are reviewed monthly.
Management reporting	Trends, overdue actions, and material exceptions are reported to Security & GRC.

7. Noncompliance and escalation

Missing custody records are escalated within one business day; substitutions require GRC approval The responsible owner documents the correction, root cause, and follow-up verification. Material deviations are included in the assurance register until closure.

8. Revision and approval

The policy owner reviews this policy annually, after a material control change, or following an assurance finding related to evidence custody. Revisions must identify changed obligations, affected owners, and implementation timing before approval.
