

Information Security Governance Policy

Decision rights

OWNER	Security & GRC
EFFECTIVE	2026-07-13
REVIEW CYCLE	Annual or material change
CLASSIFICATION	Internal

1. Purpose and scope

This policy establishes how Cobalt Harbor Systems ensures that security decisions have named authority, documented risk input, and transparent follow-through. It applies to personnel and approved providers performing the governed activity.

2. Control objectives

Objective A. Establish accountable, repeatable operating decisions for decision rights.

Objective B. Produce evidence that supports independent assurance and timely remediation.

3. Required operating practices

1. Plan the activity with documented scope, owner, and timing appropriate to decision rights.
2. Execute and record the activity using the required evidence attributes: agenda, decision record, risk rationale, assigned action, and due date.
3. Review exceptions and changes before they affect the control conclusion.
4. Preserve decisions and evidence in the approved repository for the stated retention period.

4. Accountability

ROLE	RESPONSIBILITY
CISO	Carries the assigned decision, review, or recordkeeping responsibility.
Security Steering Committee	Carries the assigned decision, review, or recordkeeping responsibility.
Control owners	Carries the assigned decision, review, or recordkeeping responsibility.

Decision rights: assurance criteria

5. Evidence standard

The accountable owner retains evidence that is sufficient to demonstrate the operating result. At minimum, each record includes: agenda, decision record, risk rationale, assigned action, and due date. Evidence is linked to the applicable system, review period, owner, and disposition so another qualified reviewer can reproduce the conclusion.

6. Measurement and reporting

MEASURE	OPERATING THRESHOLD
Primary metric	Quarterly steering decisions closed or re-baselined within 30 days
Quality review	Evidence completeness and sampled accuracy are reviewed monthly.
Management reporting	Trends, overdue actions, and material exceptions are reported to Security & GRC.

7. Noncompliance and escalation

Unresolved high-risk decisions are presented to the executive sponsor The responsible owner documents the correction, root cause, and follow-up verification. Material deviations are included in the assurance register until closure.

8. Revision and approval

The policy owner reviews this policy annually, after a material control change, or following an assurance finding related to decision rights. Revisions must identify changed obligations, affected owners, and implementation timing before approval.
