

Risk Acceptance Policy

Time-bound acceptance

OWNER	Security & GRC
EFFECTIVE	2026-07-13
REVIEW CYCLE	Annual or material change
CLASSIFICATION	Internal

1. Purpose and scope

This policy establishes how Cobalt Harbor Systems ensures that residual risk is accepted only by an accountable executive after alternatives are evaluated. It applies to personnel and approved providers performing the governed activity.

2. Control objectives

Objective A. Establish accountable, repeatable operating decisions for time-bound acceptance.

Objective B. Produce evidence that supports independent assurance and timely remediation.

3. Required operating practices

1. Plan the activity with documented scope, owner, and timing appropriate to time-bound acceptance.
2. Execute and record the activity using the required evidence attributes: risk statement, threat scenario, compensating control, expiry, and approval.
3. Review exceptions and changes before they affect the control conclusion.
4. Preserve decisions and evidence in the approved repository for the stated retention period.

4. Accountability

ROLE	RESPONSIBILITY
Risk owner	Carries the assigned decision, review, or recordkeeping responsibility.
Security & GRC	Carries the assigned decision, review, or recordkeeping responsibility.
Executive approver	Carries the assigned decision, review, or recordkeeping responsibility.

Time-bound acceptance: assurance criteria

5. Evidence standard

The accountable owner retains evidence that is sufficient to demonstrate the operating result. At minimum, each record includes: risk statement, threat scenario, compensating control, expiry, and approval. Evidence is linked to the applicable system, review period, owner, and disposition so another qualified reviewer can reproduce the conclusion.

6. Measurement and reporting

MEASURE	OPERATING THRESHOLD
Primary metric	No acceptance remains active after its approved expiry date
Quality review	Evidence completeness and sampled accuracy are reviewed monthly.
Management reporting	Trends, overdue actions, and material exceptions are reported to Security & GRC.

7. Noncompliance and escalation

Expired acceptances trigger an immediate treatment plan and status escalation The responsible owner documents the correction, root cause, and follow-up verification. Material deviations are included in the assurance register until closure.

8. Revision and approval

The policy owner reviews this policy annually, after a material control change, or following an assurance finding related to time-bound acceptance. Revisions must identify changed obligations, affected owners, and implementation timing before approval.
