

Security Incident Reporting Policy

Prompt reporting

OWNER	Security & GRC
EFFECTIVE	2026-07-13
REVIEW CYCLE	Annual or material change
CLASSIFICATION	Internal

1. Purpose and scope

This policy establishes how Cobalt Harbor Systems ensures that security events are triaged, escalated, and recorded with sufficient facts for coordinated response. It applies to personnel and approved providers performing the governed activity.

2. Control objectives

Objective A. Establish accountable, repeatable operating decisions for prompt reporting.

Objective B. Produce evidence that supports independent assurance and timely remediation.

3. Required operating practices

1. Plan the activity with documented scope, owner, and timing appropriate to prompt reporting.
2. Execute and record the activity using the required evidence attributes: detection time, classification, actions, notification decision, and lessons learned.
3. Review exceptions and changes before they affect the control conclusion.
4. Preserve decisions and evidence in the approved repository for the stated retention period.

4. Accountability

ROLE	RESPONSIBILITY
Reporter	Carries the assigned decision, review, or recordkeeping responsibility.
Incident commander	Carries the assigned decision, review, or recordkeeping responsibility.
Legal and privacy liaison	Carries the assigned decision, review, or recordkeeping responsibility.

Prompt reporting: assurance criteria

5. Evidence standard

The accountable owner retains evidence that is sufficient to demonstrate the operating result. At minimum, each record includes: detection time, classification, actions, notification decision, and lessons learned. Evidence is linked to the applicable system, review period, owner, and disposition so another qualified reviewer can reproduce the conclusion.

6. Measurement and reporting

MEASURE	OPERATING THRESHOLD
Primary metric	Median acknowledgement and containment time reported for each severity
Quality review	Evidence completeness and sampled accuracy are reviewed monthly.
Management reporting	Trends, overdue actions, and material exceptions are reported to Security & GRC.

7. Noncompliance and escalation

Late notification or incomplete timeline is reviewed by the incident commander The responsible owner documents the correction, root cause, and follow-up verification. Material deviations are included in the assurance register until closure.

8. Revision and approval

The policy owner reviews this policy annually, after a material control change, or following an assurance finding related to prompt reporting. Revisions must identify changed obligations, affected owners, and implementation timing before approval.
