Journey evidence

UX-184 | 2026-07-13

Recorded method	Recorded context	Recorded observation
journey reconstruction interview	first-use account setup	keyboard progression exposed a grouping that was not apparent in the visual layout

Recorded interpretation	Recommended action
the finding should be separated from preference because it affects task recoverability	test a keyboard-visible grouping before revising visual decoration

Task completion	Evidence confidence	Synthetic reference values
83%	0.8 (unitless)	Image record: p09-full-008337 Source record: p09-full-003058
