

Reproducibility Report: Model Alpha M-14

Rerun evidence under a locked experiment manifest.

five reruns | mean macro F1 0.873

Scope

Five reruns vary only initialization seed after corpus, labels, evaluator, and threshold are frozen. The trace tests whether one favorable run dominates.

Interpretation

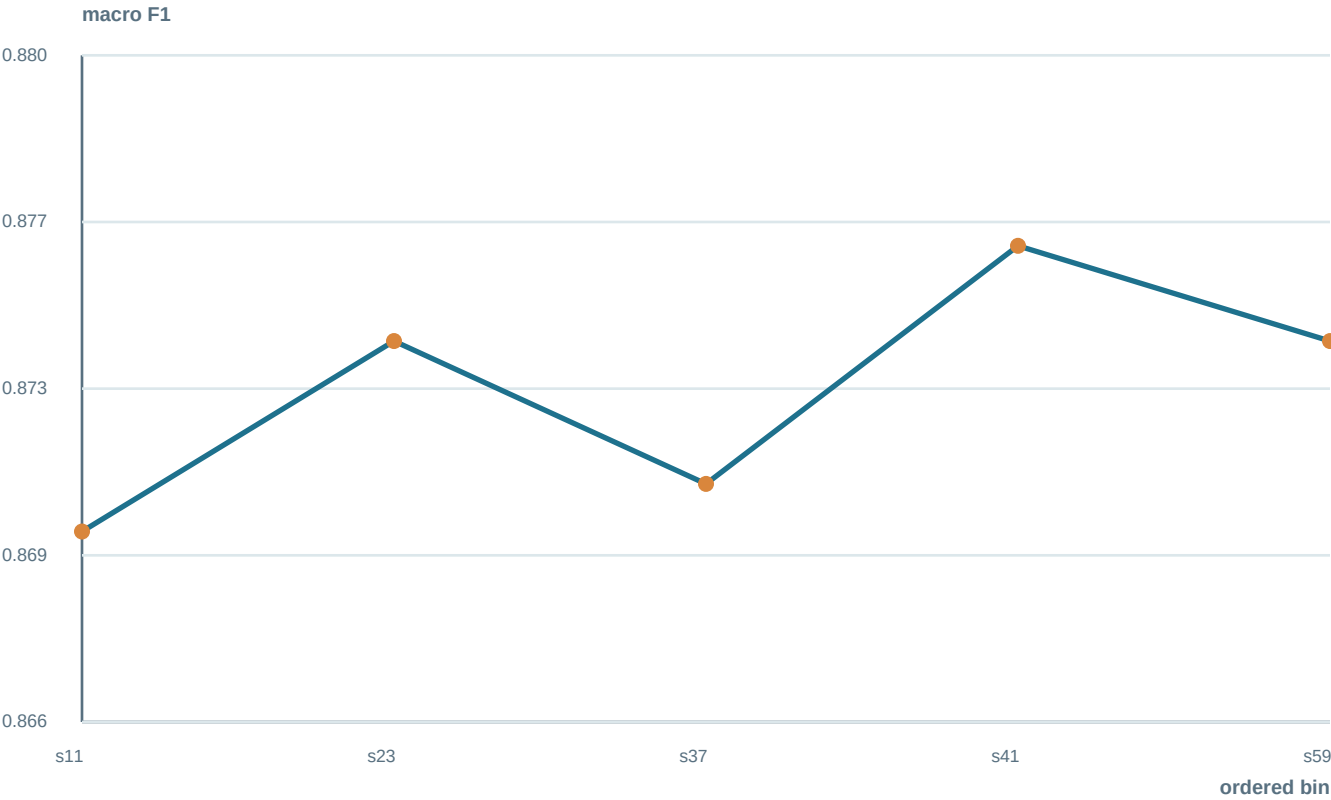

Results span 0.870 to 0.876, supporting 0.873 as the R184 summary while preserving every run.

Decision evidence

seed	macro F1	manifest
s11	.870	matched
s23	.874	matched
s37	.871	matched
s41	.876	matched
s59	.874	matched

Rerun line trace

Topic-specific analytical figure for the same synthetic R184 record.

Interpretation:

All reruns use the same manifest and land within a six-thousandth band.
