

Release checklist export

Fictional vendor export | Product Alpha Q3 | prepared 13 July 2026

Release gate

This export captures the current planning checklist for the adoption workstream. Items are framed for a product review and do not authorize production changes.

Open focus

Confirm instrumentation coverage, rehearse the support handoff, and establish the M-27 decision packet before 18 September.

Escalation rule

Escalate any ambiguous activation event or taxonomy mismatch to the Product Alpha review owner before interpreting the Q3 trend.

Check	Owner role	Status	Evidence
Activation event definition	Product analytics	Ready	threshold note
Workspace cohort refresh	Data operations	Ready	1,240 workspace export
Support tag mapping	Support operations	Review	CSV taxonomy
M-27 decision packet	Product management	Open	18 Sep review
