

Product Beta Q4 PRD approval packet

Juniper Works | Product Beta Q4 planning | 2026-07-13

Decision requested: approve a staged Product Beta Q4 plan for admin automation and trusted reporting

Context: Product Alpha Q3 is the dependency baseline; adoption is 18.4% across 1,240 synthetic work

Gate: M-27 guided rollout is scheduled for 2026-09-18.

Recommendation: approve the controlled pilot and require weekly quality, completion, and freshness m

Approval criteria

Juniper Works | Product Beta Q4 planning | 2026-07-13

1. Admin configuration is role-gated and audited.
2. Reporting surfaces show owner, data freshness, and export behavior.
3. Rollout remains cohort-controlled with a documented rollback trigger.
4. The Q4 outcome review separates Alpha dependency effects from Beta adoption.
