Cross-functional handoffs

From	To	Record	Control purpose
Legal	Privacy	Approved intake + hold	Start triage on approved scope
Privacy	IT / DLP	Custodian map	Direct preservation to approved sources
IT / DLP	Legal + Privacy	Preservation receipt	Prove the lock and validation occurred
HR	Legal	Exception decision	Complete exception governance

Risk watchlist

The committee should escalate immediately if the preservation scope changes, a retention lock cannot be applied, an evidence receipt is incomplete, or the HR exception deadline is at risk. This pack intentionally excludes personal data and legal work product.
